## PROFILE

I am a passionate Information Science student with strong skills in both frontend and backend web development. Skilled in technologies like HTML, CSS, JavaScript, Node.js, Express, and PostgreSQL. Experienced in building responsive and user-friendly web applications, integrating APIs, and managing databases. A quick learner, team player, and always eager to take on new challenges.

## PROJECTS

### ■ CRYPTO WALLET — React, Vite, Node.js, Ethereum-Cryptography | [Github](#)

- Developed a React-based crypto wallet app that signs and transfers transactions using secp256k1 and interacts with a Node.js backend.

### ■ My-Notes App — React, Node.js, PostgreSQL | [Github](#)

- Developed a full-stack notes app with React and Node.js, using PostgreSQL for backend storage and Express API for CRUD operations.

### ■ Book Management Website — Node.js, Express, EJS, PostgreSQL | [Github](#)

- Developed a fullstack web application with PostgreSQL backend for managing books and users, featuring Google OAuth, form handling, and Open Library API integration.

### ■ Capital Quiz Website — Node.js, Express.js, PostgreSQL, EJS | [Github](#)

- Developed a dynamic quiz website that fetches country-capital questions from PostgreSQL and tracks user score with session logic.
